

India's First Smart Look  
Pure and Healthy **WATER PURIFIER**

Advance **ALKALINE FILTER** with added essentails minerals for your better health.

# 1<sup>st</sup> Choice<sup>®</sup> Alkaline

The Next Level of WATER PURIFICATION

## The pH Scale

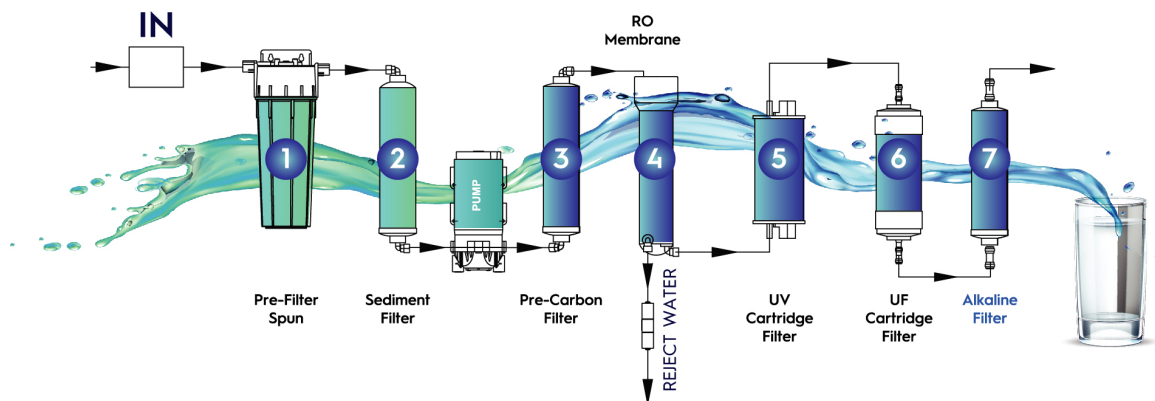

## What is ALKALINE Water?

The "ALKALINE" in alkaline water refers to its pH level. The pH level is a number that measures how acidic or alkaline a substance is on a scale of 0 to 14. For example, something with a pH of 1 would be very acidic and something with a pH of 14 would be very alkaline.

## What is the pH of normal water?

Normal drinking water generally has a neutral pH of 7, Alkaline water typically has a pH of 8 or 9. The higher the number, the more alkaline it is. The lower the number, the more acidic it is.

## Advance Alkaline + Mineral Filter

## Product Specifications

Applications: Suitable for Purification of Brackish /Tap water

Body Material: Fully ABS Food Grade Plastics

Dimensions (MM): 540MM \*360MM \* 330MM

Purification Capacity: Upto 15LPH\*

Mounting: Wall mount & Table Tap (two in one)

Inlet water Pressure/Temp (min): 4.267psi / 10 degree C

Filter cartridges : Outside Sediment + Sediment +Pre carbon + UF+RO+UF+TDS+Alkaline

UV lamp wattage: 11Watt

Power consumption: 60W

Weight: 9.5Kg

Booster pump Voltage: 24V DC

Purification Production rate: 15l/hr

Main Voltage: 100-300 V~ AC/50Hz,800m

## Product Benefits

Neutralizes natural body acid

Boost metabolism

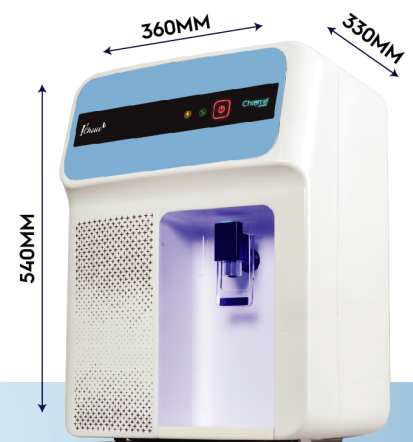

Improve water taste

Antioxidant

Hyper hydration

Weight loss

Help to absorb nutrient more quickly
